ONLINE & ELECTRONIC GIVING FAQ

Is online giving risky?

Online Giving is less risky than handwritten checks. It cannot be lost, stolen, or destroyed in the mail. It has an extremely high rate of accuracy and is easier for the church accounting office to process.

What are my options for giving electronically?

There are several ways to give electronically: automatic checking withdrawal, debit cards, and credit cards - on a one-time or recurring basis.

When will my contribution be deducted from my account?

On the dates specified on your authorization form. Electronic contributions are initiated when you choose - one time or recurring.

How is my online gift automatically deducted from my account?

Once you authorize the EFT transfer, your specified contribution is electronically transferred **directly from your checking or savings account to the church's account**. Options include a one-time, weekly, or monthly transaction.

Without a canceled check, how can I document my contribution?

Your bank statement gives you an itemized list of electronic transfers. It is your proof of contribution. The church will also record your gift and send you a record of your contributions on a monthly basis for your tax records.

How much does online giving cost?

It costs you nothing and saves you time.

What if I change bank accounts?

You can update your profile and banking information at any time by logging in and changing your bank information.

What if I desire to make changes to my electronic contribution?

No problem. You are in control. . . simply log in and make your changes.

Will my electronic contributions be included on my Statement of Contributions?

Yes, they will be included.

What if I try online giving and don't like it?

You can cancel your authorization by notifying us any time. But once you've enjoyed the convenience, time, and money savings of online giving, we doubt you will want to go back to making contributions the way you did before.
